

DX SERIES WORKSHOPS.

FAST, PRAGMATIC AND HIGH IMPACT SESSIONS THAT DRIVE UNDERSTANDING, STRATEGY AND ROADMAPS TO SUCCESSFUL DIGITAL TRANSFORMATION.

Helping business thrive in the era of digital disruption.

Harness the power of everything for sustainable business, market and customer advantage.

Discover, test, validate, create and integrate proven knowledge, skill and models for DX transformation that drives new, sustainable business value.

Your single, best source for successful digital transformation.

CLEAR DX SERIES
WORKSHOPS

15% of firms realize over 82% of the economic profit of any industry. The remaining 85% of firms wrestle over the balance—a dwindling profit pool as the largest firms get ever larger, in terms of the value they capture, in a “winner-take-all” play.

Our DX Workshop Series are fast, focused sessions to either stress-test what you are currently doing or to get you started along a new and better DX journey. The DX Workshop Series is clearly a different way to keep you out of the >75% failure zone of common digital transformation efforts.

DX Stress Test

Stress test your DX strategy in terms of where you're playing and how you're executing based on four lessons from explosive growth companies.

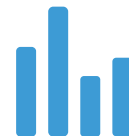

Predicting DX Business Impact

Discover where and how to make money and the business impact of technology through proven frameworks and the Workforce of the Future.

Cloud Migration Workshop

Clarify or stress-test your cloud migration ERP package. Discover what needs to be done to align business and cloud-based technologies for advantage.

Four Generation Scenario Planning

Explore important frameworks and methods that underly executive and capital allocation decisions under different conditions. A pragmatic workshop.

Ecosystem-centric Strategy Workshop

Quickly develop or refine your DX strategy from an ecosystem perspective. Discover how to find the new 20% of new capability that drives 75% of new value.
