

CLEAR ASSURE SERVICES

Take your business beyond what you thought possible.

Continuous enhancement, optimization and support that ensures the power of predictable technology performance.

Traditional managed services and help desk support isn't good enough any more. Today's business requires much more. You need a predictable partner who can take your business technology farther than you thought possible—from go-live maintenance to enhancement and optimization.

Enterprise business technology is never a “one and done” effort.

Leading companies continuously evolve requirements, delivery needs, technology optimization and user support. Leaders build the process of continuous optimization and technology lifecycle management into their DNA for predictable, sustained and repeatable business advantage.

The power of our experts.

Forget about help desk associates. CLEARASSURE brings proven practice leaders, technology and process experts and an extended business ecosystem. Confidently manage and optimize your IT investments in a new, predictable and successful manner.

The power of your business.

Every engagement is adapted to exactly what you need to engage your business technology for advantage and a better balance sheet.

The power of shared accountability.

We “take ownership” of your business technology. One source and one point of accountability mean no surprises, ever.

ASSURE predictable performance.

Rapid, economical and predictable services that transform technology management uncertainty to predictable business performance in one call. That's CLEARPRISM.
